

No sir-ee, bob!

No premiums with Camels—all quality!

CAMELS quality plus Camels expert blend of choice Turkish and choice Domestic tobaccos pass out the most wonderful cigarette smoke you ever drew into your mouth!

And, the way to prove that statement is to compare Camels puff-by-puff with any cigarette in the world!

Camels have a mild mellowness that is as new to you as it is delightful. Yet, that desirable "body" is all there! They are always refreshing—they never tire your taste.

Camels leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor! Your say-so about Camels will be:

"My, but that's a great cigarette".

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

CIGARETTES

FARM DEPARTMENT.

KEEP DRINKING WATER IN THE SHADE

During hot weather keep drinking fountains and other watering devices for poultry in shady places. Not only does the shade keep the water cooler, but it results in less evaporation. Whether the drinking receptacle is in the shade or not may determine whether the poultry have plenty of water to drink or whether they go thirsty until attendant notices the lack of water. Successful poultry management depends on many details, of which the proper care of drinking water, according to poultry specialists of the United States Department of Agriculture, is one of the most important.

After the eighteenth day do not open the incubator door until the chickens are hatched.

If possible, locate the brooders on ground that has recently been cultivated, thereby eliminating the danger of tainted soil and possible disease.

Chickens never wash, as many other birds do, but cleanse themselves of insects by wallowing in soil. For this reason every poultry house should be provided with a dust box.

Mites and lice frequently sap the vitality of the fowl and prevent growth or lessen the egg production. A thorough cleaning of the house, regular applications of disinfectants to the roosts and nests, and a frequent dusting of the fowls will control these pests.

Should Use Beans and Peas in Place of Meat.

Beans and peas contain more protein than other fresh vegetables. This protein, however, is not the same as the protein of meat, milk, or egg, food specialists of the United States Department of Agriculture say, and should not be used to the exclusion of the others. When, however, beans and peas are freely used, less milk, meat and eggs are needed. The following foods or combinations of foods supply as much protein as one-fourth pound of beef of average composition:

Eight or nine ounces of shelled green peas or beans. A large dish of green peas may be used in place of meat for dinner occasionally. Many persons like peas cooked with mint or served with mint sauce.

One egg and 4 or 5 ounces of shelled green peas or beans. An omelet with peas (1 egg and 1 cup peas per person) or a baked pea or bean soufflé may be used as a meat substitute.

One cup skim milk and 4 ounces

of shelled green peas or beans. A Lima bean chowder made with skim milk is a good lunch or supper dish.

Keeping Aluminum Bright.

Aluminum does not tarnish easily in ordinary use, but one caution should be observed in cleaning. Alkali discolors aluminum; therefore it should not be washed with strong soap, nor should scouring powders containing free alkali be used on it. Discoloration on aluminum may be rubbed off with whiting or fine steel wool (grade 00), or dissolved by the acid in vinegar, or by dilute oxalic acid. These acids must be thoroughly washed off the aluminum. Some special preparations for cleaning aluminum are on the market.

Marketing of Live Stock in Country Districts.

The simplest method of disposing of live stock prepared for market is that in which the buyer visits the producer, examines the stock, and gives the producer an opportunity to make a sale. In the more densely populated farming sections local butchers and stock buyers travel through the country looking for stock. These buyers, as a rule, purchase stock at prices which are below current market quotations, in order to allow for shrinkage and expenses connected with delivery. They may also endeavor to drive hard bargains with producers who are at a disadvantage in any respect, as for instance, in knowledge of market conditions or in the quality and quantity of the stock they may have to sell. Underfed or low-grade stock is almost sure to find a purchaser who will raise objections to its quality and fitness for market or slaughter, say live stock experts of the United States Department of Agriculture, and will demand a maximum of accommodation in the handling and delivery of the stock.

The buyer may or may not require delivery to the local slaughter-house or stock yards, much depending on the demand of the market for the class of stock sold. Some feeders sell rather regularly to the same buyer, a plan which has certain advantages for both buyer and seller. If the buyer feels quite certain of obtaining well-finished animals which he can use to advantage, he will be likely to make liberal concessions in regard to the disposition of the stock after sale; and the stockman finds it more convenient, as well as agreeable, to sell to a man with whom he is acquainted, in whom he has confidence, and on whom he can call whenever he is ready to sell.

One of the first essentials to satisfactory marketing arrangements is

standardized products. Cans, jars, and other containers should be uniform in pack, appearance, quality, and condition. Every container which is fully up to the standard represented by the label or brand will then be an advertisement in itself and often a guaranty to further purchases.

Agents Aid in Marketing.

Work of exceptional value to farmers has been done by various county agents in connection with the organization of live-stock shipping associations and live-stock auction sales. The shipping associations have been especially successful in Minnesota, Michigan, Wisconsin, and Oregon, as well as in several states in the South. The live-stock auction sales have been developed in California on an Australian model which was introduced by a county agent who had been engaged in agricultural extension work in New South Wales. The value of the stock marketed through these auction sales in California amounted to \$1,790,330 and increased returns to the farmers by \$166,946 over prices which the stock would have brought had the auction sales not been held.

Grading potatoes for market increases the possibilities for sales and raises the price received. Keep the culls on the farm and save the cost of handling.

CRAZED BY SNAKE-BITE BOY IMITATES SERPENT

Poughkeepsie, N. Y., Aug 14—Five days after being bitten by a rattlesnake near Milford, George Swenson, 19 years old, became violently insane and was taken to the Hudson River State Hospital, where he is under observation. The boy suddenly threw himself through the air, as a snake would strike, crashing from his chair to the floor, where he crawled on his stomach, imitating the motions of a snake and frothing at the mouth.

The boy, who had been in the army medical corps and knew first aid treatment made a "rude" tourniquet when he was bitten and cut the flesh from the wound with his penknife. He had hovered between life and death, but was thought to have been out of danger.

NEW VOCATION LOOMS

Not "junk dealers" but "waste material dealers," if you please, is now the name of persons dealing in rags, paper, old iron and similar articles, according to F. X. W. Reidenbach, of Rochester, president of the National Association of Waste Material Dealers. This body has initiated a campaign to dignify the name of their business, owing to its immense growth in volume since the "scrapping" by our government of vast stores and supplies.

KENTUCKY CROP REPORT FOR AUGUST

Considerable increases in the estimates of production of corn, oats and potatoes in Kentucky, compared to July 1, estimate a slight increase in the estimate of the wheat crop in Kentucky, and a slight decrease in the State's tobacco prospects, are the features of the monthly crop report issued today at Louisville and Frankfort by the U. S. Bureau of Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. Tobacco shows a slight reduction from July estimates because of rather poor condition in some sections, but as there is a big acreage in the burley belt which partly makes up for the reduced acreage in Western Kentucky and both sections can yet make a full normal yield if given favorable weather, the estimate of tobacco production is not greatly reduced. The United States total tobacco crop is considerably larger than last year.

Probable corn production in Kentucky is estimated at 96,941,000 bus. compared to a July 1 estimate of 86,170,000 and a crop last year of 82,500,000 bus.; wheat this month is estimated at 6,304,000 bus. compared to a July 1 estimate of 6,275,000 bus. and a production of 12,029,000 bus. last year; potatoes 6,355,000 bus. compared to prospects July 1 for 5,971,000 bus. and a crop last year of 5,040,000 bus.; and tobacco 431,640,000 lbs. compared to a July 1 estimate of 437,580,000 lbs. and last year's production of 456,500,000 lbs. This estimate on tobacco may be increased or decreased later, however, depending on favorable or unfavorable weather.

Rye production in Kentucky this season is estimated at 636,000 bus. compared to 744,000 bus. last year; oats 11,615,000 bus. compared to 9,900,000 bus. last year; barley 112,000 bus. compared to 100,000 bus. last year, and sweet potatoes 1,635,000 bus. compared to 1,680,000 bus. last year. Fruit is a good crop in Kentucky as a whole, apples being estimated at 5,063,000 bushels and peaches 1,526,000 bushels. The condition of other crops in Kentucky is reported as follows: alfalfa 90 per cent, millet 86 per cent; pasture 88; cowpeas 86; field beans 90; tomatoes 91; cabbage 90; onions 92; grapes 82; watermelons 78; muskmelons 79; broom corn 85; sorghum for sirup 89; average yield of clover hay 1.4 tons per acre.

Children Cry FOR FLETCHER'S CASTORIA

The Pope's personal expenses average little more than \$50 a year.

MASTER COMMISSIONER'S SALE.

L. H. Webb, et al., Plaintiffs, vs. Notice. Clara Webb, et al., Defendants. By virtue of a judgment and order of sale entered in the above styled action at the July 1920 term of the above styled court, directing me to sell the hereinafter described property for the purpose of dividing the proceeds among the parties entitled thereto, and paying the cost of this action, together with the cost of this sale, I will offer for sale, at public outcry to the highest and best bidder, at the court house door in Hartford, Ky., on Monday, September 6, 1920, (it being the first day of a regular term of the Ohio County Court) at about the hour of one o'clock p. m. upon credit of six and twelve months, the following described real estate, lying and being in Ohio County, Ky., being two tracts adjoining each other.

Tract No. 1. On the waters of No creek and bounded as follows: Beginning at a stone in S. L. Baird's line; thence S. 85 poles and 17 links to a stone in J. W. Barnett's line; thence E. 87 poles to a stone on a branch of No creek; thence with said branch N. 8 E. 83 poles and 17 links when reduced to a straight line to a bench on said branch corner to S. L. Baird, C. W. Stevens' corner; thence with Baird's line N. 88 W. 98 poles to the beginning, containing 60 acres. Being same land conveyed to Thomas E. Webb by Washington Phillips by deed dated June 15, 1882, and of record in the Ohio County Clerk's office in deed book 3, page 152.

Tract No. 2. Beginning at a stone, S. W. corner of Thomas E. Webb's land; thence S. 3/4 W. 84 poles to a stake on the bank of Little No creek; thence up said creek N. 52 E. 7 poles; thence S. 35 E. 20 poles and 10 links; thence N. 53 1/4 E. 44 poles and 15 links thence N. 37 1/2 E. 35 poles; thence N. 8 1/2 E. 26 poles and 10 links to a stone on the bank of said creek; thence W. 87 poles to the beginning, containing 34 acres. Being same land conveyed to Thomas E. Webb by V. D. D. Stevens and wife on September 30, 1888, which deed is of record in the Ohio County Clerk's office in deed book 6, page 520.

The purchaser will be required to execute bonds immediately after sale with security to be approved by the commissioner, in equal installments, due in six and twelve months, bearing interest at the rate of 6 per cent per annum. Said bonds to have the force and effect of a judgment. A lien will be retained on the land sold to further secure the purchase price. Given under my hand this 19th day of August, 1920.

OTTO C. MARTIN, M. C. M. L. Heavrin, Attorney.

DIRECTORY.

CIRCUIT COURT.
Judge—R. W. Slack, Owensboro.
Com'th. Attorney—C. E. Smith, Hartford.

Every Woman Wants

Paxtine

ANTISEPTIC POWDER FOR PERSONAL HYGIENE

Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical, safe, thorough cleansing and germicidal cover. Sample Free. 50c all druggists, or postpaid by mail. The Paxton Toilet Company, Boston, Mass.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified.

FOR KIDNEY, LIVER AND STOMACH TROUBLE
It is the best medicine ever sold over a druggist's counter.

Beauty Secrets for Women

A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girlish dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have headache and dragging pains. Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now. In tablet or liquid form at all druggists, or send 10c for trial package of the tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

Mother's use

Frey's Vermifuge

For the Children

A Safe Old-Fashioned Remedy for Worms

Seventy-five years continuous use is the best testimony. FREY'S VERMIFUGE can offer you.

Keep a bottle always on hand. It will help keep the little ones happy and healthy.

30c a bottle at your druggist's or general store; or if your dealer can't supply you, send his name and 30c in stamps and we'll send you a bottle promptly.

E. & S. FREY, Baltimore, Md.

WILL YOU TAKE OUR GERMINAL REMEDY

A Treatment for WEAK LUNGS or CONSUMPTION

FOR ONE MONTH

A quick relief for that tired, run-down feeling, coughs, pains in chest, night sweats, hemorrhages, weak lungs or consumption. If it does not help you it costs you nothing.

LOCK BOX 616 COLUMBUS O.

USE LIV-VER-LAX

For Lazy Liver and the Troubles of Constipation.

Feel right all the time. Don't lay off from work for days by taking calomel when pleasant Liv-Ver-Lax keeps you on your feet, while relieving your troubles. Safer too, and easy to take.
